Hi Linda

Will DART cover the shipping of the missing components ?

This is a kit we promised from stock , but there was some confusion with parts available (email below)

Do we need to add any parts to the order if we ship the available tools first ?

Karine,

Our plan was to put these parts "in transit" so they would not show stock, however, I did not get to do this on time, as Ernest sent the order in on Sunday. We could put one kit together, but there WILL be missing parts:

RBE350A93-3302-02

RBE350A93-3303-02

RBE703A95-0508-00

Thank you

Correct,

we are missing the RBE350A94-3701-00 (sub part at outsource) and the new case and foam. The sub part to complete this tool, should be back early next week, so for sure we can ship this tool next week sometime. We are also, still waiting to hear back from our supplier on the new case and foam, but they did say they were trying to have them delivered this week.

My suggestion is to let them keep the old case- JL, do you agree??

Hi Linda

Just to double check

We can ship all tools – except one ? in an old case ?

Missing tool and the new case to follow in the 2ns shipment ? will we let them to keep the old case or we need it back ?

Can you advise what tool is missing ?

Thank you

We are still working on it...foams and cases have still not arrived, but are supposed to be here at the end of this week...
What we could do, is ship all of the tools in one of the old cases and ship the new case when available.

Only 1 tool missing, is at outsource, should arrive this week

Pls let me know asap

Hi Linda,

Any feedback on this one?

Customer was quoted stock and ends up with a 8weeks LT. He had to reorganize the mission but can't do it again. I talked to them this mning and they can't accept to receive it after March 8. They will have to find an alternative solution and cancel the order.

Please let me know asap if we can ship on March 8 or what the latest date be as I need to inform the customer.

What are the missing parts? Case and foams or also some tools?

Kinga,

We have received numerous ECN's for changes to this kit, and we are still working on adding these changes to the kit, as well, there are new cases and foams that had to be ordered, and we are waiting to hear back from our supplier as to when these will arrive. We are still TRYING for March 8, but this might have to be pushed out by a week.

Hi Linda,

I have talked to the customer and he has found a way to re-organize himself.
He would need the FMK to be shipped on March, 8th the latest. Would that be feasible?

Subject: AS350 FMK - Order 12817

Hi guys,

I am currently facing an issue with order 12817. (AS350 FMK – P/N RBEA62309)

Based on the list provided by Rob the other day, I understood we had one field maintenance kit in stock that was supposed to be shipped to our Amsterdam warehouse.

One French customer ordered one of these and due to his urgent need, I thought we could use this one as it was aimed to be shipped to our Amsterdam warehouse asap anyway to serve our European customers. Customer was then informed we had stock.

However, Kinga told me that it has been allocated to an order from Ernest and that the kit was shipped yesterday.

I would like to understand how it can be sent to Asia/PAC if it was supposed to be shipped to EU asap?

My customer needs the kit to be delivered on Feb,8th the latest. Is there anything we can do? Are we missing all the tools or could some of them be eventually be sent in advance. Apparently, given LT is 6-8weeks.
